

♦ Public Sector Union and Association Plans

Trucker Huss provides advice and representation to public-sector unions and public-sector benefit plans. We serve as counsel to several state-wide and local public-safety union funds. We provide our clients with practical solutions to the problems they encounter, which often require an understanding of the governmental environment and unique situations in which they operate.

The Firm has extensive experience advising our clients about and designing, drafting and implementing group health plans, retiree plans, disability plans, legal defense funds, and other types of welfare and pension plans. The Firm's activities also include:

- > Interacting with the IRS and DOL
- > Advising on trust fund staff employee relations issues
- > Addressing a wide range of investment and fiduciary issues
- > Working with third party and in-house administrators and other plan providers on contractual, administrative, data process and investment matters that arise in the working of these plans

For more information regarding this area of the Firm's practice, please contact Deborah Judith Wiener at dwiener@truckerhuss.com.
